Competition Rules**

FAST ELECTRIC COMPETITION RULES

This class is for restricted class fast electric racing models.

- 1 The restricted class rules are :
 - b Maximum hull length is 24 inches;
 - c The boat should be semi-scale and should preferably carry a driver figure if it has an open cockpit;
 - d The motor must be a standard unopened 540 or equivalent with a maximum cost of £20;
 - e A maximum of six sub-C Ni Cad cells of a maximum capacity of 1.7 Ah capacity or nickel-hydride cells of maximum 1.8 Ah capacity must be used;
 - f Only plastic propellers may be used.
- 7 The race is normally 15 to 20 laps of an M shaped course.
- 8 If the boat misses a marker buoy it must re-round the buoy, keeping out of the way of other boats.
- 9 Deliberate ramming will lead to disqualification.
- 10 Each competitor should have a lap counter to keep them informed of the number of laps completed.
- 11 The winning places will be in order of completion of the course.
