Accommodation Blackpool

These numbers may help with accommodation as they are local booking services and should be able to help you. It is recommended that you book early as it can be busy. For those on the net a search of hotels in Blackpool will prove in many instances quite a saving and if you care to look just outside the town towards Thornton or Lytham you will find some nice places to stay at very reasonable rates leaving at most a 10 to 15 minute drive.

Notes Blackpool

Again it can be approached from a number of directions but the easiest is from the south get onto the main promenade road and head north from the tower until you see the Norbreck Castle Hotel and like wise from the north if you get onto the promenade road the hotel is approximately 2 miles north of the Tower. We have a rate from the hotel of 130 per night double inc food however I suspect you may find better on the internet or have a look in the vicinity e.g. towards Thornton as there are far better hotels at better prices with 10/15 minutes drive.
