

PROPOSED EXHIBITION TO SHOWCASE MODELS OF SCOTTISH FISHING BOATS.

The Scottish Fisheries Museum Model Boat Club in conjunction with the Scottish Fisheries Museum are proposing to hold an exhibition of Scottish Fishing boats to be held within the museum, Anstruther at some time to be arranged later possibly during 2016.

The SFM MBC are looking to circulate all of the Model Boat Clubs in Scotland to seek entries to this exhibition. The exhibition will showcase the building of model fishing boats in Scotland. These can be of any vintage covering all of the industry to date.

In the first instance anyone interested in having their model exhibited should send a photograph of the model, along with a note of who built it and any other detail thought to be of interest. Please mention the affiliated club and contact details of the donor with email addresses if appropriate.

On receipt of the applications and if sufficient applications are received, a panel comprising the Curator and other staff of the Museum, along with the Executive of the MBC will select (without fear or favour) the models that should be invited to exhibit in the Museum. Entries will be selected relative to the space available within the Museum.

When a date has been set for the exhibition it will be the responsibility of the selected owners to deliver to and uplift from the Scottish Fisheries Museum the model in question. During the time the model is with the Museum it will be fully insured with the museum collections. The models will be cased during the exhibition.

If this goes ahead it will be a great promotion of our hobby at the highest level.

Just because this is a museum please do not be put off in sending photographs of your models.

In the first instance entries should be sent to - Attention of Iane Duncan; Secretary Model Boat Club; The Scottish Fisheries Museum; St.Ayles; Harbourhead; Anstruther; KY10 3AB. Photographs submitted will not be returned. While photographs are preferred an email would be accepted to tods2@tiscali.co.uk

Full progress updates will be made using the web site of the SFMBC.

Please assist me to put on an exhibition we can all be proud of.

Regards

Iane Duncan
